1883-84.

Pursuant to the provisions of the City Charter, the Board of Aldermen of Jersey City met at the Aldermanic Chamber, City Hall, on Tuesday, May 8, 1883, the first Tuesday after the first Monday in May.

The Board was called to order by the City Clerk at 8:50 o'clock p. m.

The roll was called and the following named Aldermen answered to their names and took their seats:

First Aldermanic District—Robert S. Jordan, A. Harvey Marsh.

Second Aldermanic District—James Ambrose, John F. Kelly.

Third Aldermanic District—Hugh H. Abernethy, Frederick Hauser.

Fourth Aldermanic District—Ferdinand Dziuba, William H. Furman.

Fifth Aldermanic District—Joseph J. Reynolds, William D. Reynolds.

Sixth Aldermanic District—Pearl C. Hilliard, Robert A. McKnight.

On motion of Alderman Abernethy, Alderman J. J. Reynolds was appointed President pro tempore.

The Board then proceeded to the election of a President for the ensuing year.

Alderman Furman was nominated by Alderman Abernethy.

Alderman Jordan was nominated by Alderman Kelly.

Two ballotings were had, which resulted as follows. Aldermen McKnight and Hilliard were appointed and acted as tellers:

First balloting—Alderman Furman received six (6) votes; Alderman Jordan received five (5) votes; one blank was cast.

Second balloting—Alderman Furman received seven (7) votes; Alderman Jordan received five (5) votes.

Whereupon Alderman William H. Furman having received the requisite number of votes, was declared elected President of the Board of Aldermen for the ensuing year.

Aldermen Jordan and W. D. Reynolds were appointed a committee to conduct the President to the chair.

The committee performed its duty and the President briefly addressed the Board, returning thanks for the honor conferred.

On motion of Alderman Jordan, the Board proceeded to the appointment of City Clerk.

John E. Scott was nominated by Alderman Jordan.

A balloting was had, which resulted as follows: Aldermen Kelly and Dziuba were appointed and acted as tellers:

John F. Scott received twelve (12) ballots.

Whereupon John E. Scott having received all the votes cast, was declared appointed City Clerk.

The following resolution was offered by Alderman Abernethy:

Resolved, That a special committee of three be appointed to wait upon his Honor the Mayor, and inform him of the organization of the Board, and of its readiness to receive any communication he may desire to make.

The resolution was adopted, and Aldermen Abernethy, Kelly and Dziuba were appointed the committee.

On motion of Alderman Jordan, the Board took a recess for fifteen minutes.

On reassembling the committee, through Alderman Abernethy, its chairman, presented the annual message of Hon. Isaac W. Taussig, Mayor.

The Clerk proceeded to read the message, when, on motion of Alderman Kelly, further reading was suspended, and the message was ordered filed.

The following resolution in relation thereto, was offered by Alderman Abernethy, and adopted:

Resolved, That the message from the Mayor be received, printed in the minutes and one thousand copies printed in pamphlet form under the direction of the Committee on Printing, Stationery and Supplies, when appointed.

Said message being as follows:

EXECUTIVE DEPARTMENT,
MAYOR'S OFFICE, CITY HALL.
JERSEY CITY, May 8th, 1883.

To the Honorable the Board of Aldermen of the city of Jersey City:

Gentlemen—In observing an established custom, I again present to you my annual message.

MINUTES.

1893-94.

It is of interest to our citizens to be informed, at least annually, what has transpired during the year, but as a message must necessarily be brief, I will only make mention of those matters which I deem important, and offer the recommendations and suggestions which arise from a consideration of the same.

During the past year as per Comptroller's statement, dated January 3rd, 1883, the receipts of moneys collected from all sources was as follows:

From taxes (except 1874 and previous years)	$1,505,370 01
From State of New Jersey (school)	166 091 27
Receipts of Sinking Funds	169,855 34
From old assessments (heretofore paid by city	51.154 62
From all other sources (except water account)	46.710 14
	$1,939.181 38
Total expense annual tax levy, including interest on bonded debt	$1,800.500 76
Leaving a surplus of	$ 138,680 60

This statement is gratifying, for it shows our ability to meet our obligations and to maintain our credit.

The steady growth of our city in population, and the erection of manufacturing establishments and private dwellings has continued, and in some portions of our city the demand for dwelling houses cannot be supplied. This shows that we are fast approaching the time when our city will be called the City of Homes, for we gather not only the well-to do people in our midst, but also the poorer working classes who cannot elsewhere find so cheap homes or rentals as in our city.

The property in Jersey City on which taxes are assessed and paid according to the assessors valuation in 1882, is as follows:

	Real Estate.	Personal Property.	Total.
1st Ald. Dist.	$10.072.600	$2,748,800	$12,821.400
2d "	10,141,850	688,800	10.830.650
3d "	7,100,300	319,250	7,419,550
4th "	8,026,250	257.050	8,283.300
5th "	8,733.165	493,200	9.226.355
6th "	12.230.607	696,225	12,926.832
	$56,304.712	$5.263,325	$61,508,097

The above amount of $61 508.097 does not include the railroad property in Jersey City, amounting to several million dollars, which pays a city tax of one per cent under the act of 1873.

In regard to the collection of taxes, I would remark that while we have a large sum now due and unpaid, the percentage collected has increased each year for the last three years. One great reason for the accumulation of arrears in our city has been the depression in real estate since 1873, and as a large proportion of the taxes now due is on vacant lots, the owners of said property have found it impossible to pay taxes when no revenue was derived from the same.

But property commenced moving slightly last year, and this year I notice a very marked improvement, and I think I can safely say that this will be the best year for real estate in our city since 1873.

During the last few months many vacant lots have been sold for building purposes, all of which will be improved by the new owners and help to increase the tax rolls. Last year we paid a State tax amounting to $59,406, which I am happy to say will not be required from us this year.

Real estate again finds purchasers and the demand for suitable building locations is better than it has been for some years. What we still need is cheap and quick transit and communication between the ferries and the hill portions of our city, so that in the near future our city may be as much sought after for residence, and homes as is done in our neighboring cities.

RAILROAD TAXATION.

In my last message I referred to the failure of Jersey City to obtain any relief from the Legislature with reference to the inequalities of taxation upon railroad property, and also to the action taken by the Board of Aldermen looking to the appointment of a committee to obtain some voluntary action on the part of the railroads, which would, at least in part, do justice to the city.

Since that message the Legislature has met and adjourned without giving us any relief.

The committee appointed by the Board of Alderman caused a communication to be addressed to the Pennsylvania R. R. Co. and the Del., Lack. and W. R. R. Co. The Pennsylvania R. R. Co. has paid to the city $30,000 as a voluntary payment.

The amount of the tax on its elevator, which is over $12,000, is included in this amount. The company claims that the elevator is not liable to taxation. The Corporation Counsel claims that it is. Under his advice the city refused to receive the money until the company had agreed to bring a writ of certiorari to test the validity of this tax, and incidentally to decide as to the right of the city to tax this species of property when owned by railroad companies.

Whether the suit is decided in favor of the city or not, the $30.000 remains in the city treasury.

In receiving this money the city did not waive any of its rights, and its receipt does not in any way affect any lawful claim that the city may have against the company.

It was offered and received as a gift under an arrangement which preserved the legal rights of both parties, whatever they might be.

The amount that this company would pay under the railroad tax act of 1873, according to the assessors' valuation, appears by the report of the Corporation Counsel, made last year, to be $41,527 70, provided said company was liable to taxation under that act.

The Delaware, Lackawanna and Western Railroad Company has not paid or offered to pay anything whatever to the city upon property claimed by it to be exempt from taxation under the decision of the Supreme Court of the United States, in the case of New Jersey vs. Yard, 5 Otto, page 114.

It has, however, agreed to pay the taxes and assessments on property owned by it not in actual use for railroad purposes, but it has not yet paid the same.

The matter is in process of adjustment as to the amount, and several thousand dollars will undoubtedly be paid the city on this account. But I have no reason at present to believe that this company has any intention to pay anything upon its property used for railroad purposes, which it claims to be exempt under the above decision.

Mr. Yard, Railroad Tax Commissioner in 1876, valued the exempt property of this company at $2,022,600.

Since then it has purchased about two million dollars worth of property located in our city.

I desire to again urge our citizens to continued efforts to obtain some relief from these unjust exemptions.

The railroad tax act of 1873 discriminates in favor of railroad companies against the citizens by restricting the municipal tax to one per cent. instead of the usual city rate, and in addition gives large exemptions of property for road bed and terminal purposes; the city, however, receives considerable revenue from the companies that are subject to the provisions of this act of 1873.

The great hardship is with reference to the property of the railroads that are entirely exempt from municipal taxation.

The voluntary action of the Pennsylvania Railroad Company has relieved this inequality in a large part so far as it affects that company, but the amount we received from that company was only as a gift, and we cannot claim it as a right under the laws of the State as they stand. We have no relief whatever against companies like the Delaware, Lackawanna and Western Railroad Company that have exemption sustained by

the courts, and that refuse voluntarily to pay any tax on such exempt property. The Corporation Counsel in his report to the Board of Finance and Taxation in 1882, says, in reference to this matter: "I am of the opinion that if the city desires to subject these exempt corporations to taxation, the same as individuals, the only remedy is legislation."

The Legislature can impose full taxes upon all corporations that have no contracts with the city. In my judgment they cannot impose any tax on corporations having such contracts other than the tax specified in the contracts, until they shall have condemned and taken for the public and paid for these franchises, exemptions and privileges.

I am clearly of the opinion that the Legislature has the power to extinguish these exclusive privileges for the public good by condemnation, and that they have a right to submit to a jury and a court the value of these privileges, and to provide a mode for paying the value thus determined, and when they have been thus extinguished to subject every corporation to a tax the same as individuals.

OUR STREET FRONTS AT THE WATER.

Since my last message Judge Nixon has decided in the United States Court, at Trenton, the suits brought by the City of Hoboken against the Pennsylvania Railroad Company and other companies occupying the streets at the river fronts.

He has decided against the city and in favor of the companies. These cases present two questions which were not decided in the case of the Hoboken Land and Improvement Company against Hoboken reported in 7 Vroom, 540.

In that case the Court held that the dedication of the street to the water continued over the filled-in land.

The Court in that case said, "The grant to the defendant is not of land of the State in express and definite terms. The right conferred is a mere privilege of reclamation and appropriation to private uses. The act incorporating the defendants contains no language indicative of an intent to extinguish the public right of access to to the river, and the defendants hold the title acquired by legislative permission subject to the obligation that resulted from the original dedication of permitting the connection of the street with navigable waters to remain unbroken."

The defendants in the case before Judge Nixon presented the following additional defence:

The Pennsylvania Railroad Company claimed the land at the foot of Second street, where River street crosses Second street, under "An act to enable the United Companies to embrace land under water at Kill Von Kull and other places," approved March 31, 1869 (Laws of 1869, p. 1,026. Under this act the company filed a map and paid the State $20,000, and under their map they claim not only the land in Hoboken, but also nearly all of the Jersey City front except that which is embraced in the Harsimus grant made under Chapter 248 of the Laws of 1868 (Laws 1868, p. 551). The other companies claiming the river front of other streets in Hoboken defended under riparian grants made by the Board of Riparian Commissioners. They produced deeds covering the fronts of the streets. The city of Hoboken is preparing to carry these cases by appeal to the Supreme Court of the United States, and the decision in these cases will settle the law with reference to the rights of the city as to all streets ending at the river front covered by riparian grants or coming under the act of March 31, 1869.

The rights of the city and of the united railroads and canal companies, under the act of March 30, 1868, will not arise in any of these suits.

The rights under that act affect, however, only the land covered by the Harsimus grant, for which the companies paid the State $500,000. I confidently trust that the rights of the city to carry these streets to the water, according to the old maps, will be sustained by the Supreme Court of the United States. If Hoboken succeeds in her appeal, our city will have no further fight to make, and our citizens will enjoy their right to go the water over their public streets as laid down by the highest court of our State.

LEGISLATIVE ACTION.

The Legislature during the session just closed has passed several important laws affecting the city, among others the authority to renew the water scrip, which fell due January 1st, and a portion of which has already been renewed under said act at 5 per cent. interest.

Also an act which will prevent the extension of time in which to complete contracts, unless the additional expense of the inspector shall be paid by the contractor.

Heretofore this additional expense of the inspector, beyond the date of the contract has been paid by the city. This act will save money to the city and prevent abuses which now exist.

Also an act to authorize the expenditure of forty thousand dollars for a new school house, which the inhabitants of Greenville need.

Also an act the operation of which has been to abolish the Treasurer of the Board of Education, and require payment of all salaries to be made through the City Treasurer.

Also an act authorizing the expenditure of five thousand dollars in addition to the regular appropriation for the poor.

Also an act authorizing the compromise of past due assessments prior to January 1, 1881.

Also an act under which a county road can be built in this county.

Also an act for the relief of officers and school teachers and other employees of the Board of Education, who otherwise would have lost money by the failure of the City Bank.

Also one fixing the payment of interest on past due taxes and assessments at seven per cent. per annum in lieu of other interest and penalties.

Also an act requiring the use of glass ballot boxes.

Also an act authorizing the expenditure of forty thousand dollars for the purchase of land and the erection of an armory for the State militia.

Also an act authorizing re-assessment for assessments set aside against property of prosecutors in certiorari proceedings without requiring a general reassessment.

Also an act to authorize the payment of deficiencies in janitors salaries for the present fiscal year, and limiting the amount to $3,500.

Also an act to authorize connecting sewers in two cities; which is intended to make an outlet for the Ravine road sewer through the city of Hoboken.

Also an act authorizing the expenditure of $4,900 for the preservation of the public records of the city.

Also an act to provide for any deficiency in payment for taking the school census.

Also an act authorizing cities that have been indicted for maintaining nuisances to construct sewers to remedy the same, at an expense not exceeding $50,000, and to assess the benefit on property benefited.

Also an act to build sewers on the petition of fifty property owners in any neighborhood which lacks drainage.

This is intended to provide for certain parts of Greenville which need sewage.

The Legislature failed to pass the act approved of by the Citizens Association providing for the abolishing of certain Boards in the city and simplifying the city government, and vesting more extensive powers and responsibilities in the city executive.

The bill passed the Senate but failed in the House, principally owing to the decision of the members from Newark, who were also affected by it, the bill being applicable to cities of the first class.

It is to be regretted that this or some act could not have been passed by the Legislature which would simplify the city government and vest power and responsibility in some officer whom

the citizens could directly reach at another election.

Under the present charter of Jersey City, of 1871, with its various amendments, our government is one of the most complex in the State of New Jersey. It would be much better for the citizens if they had the simplest form of government with a responsible head. Our form of government is cumbersome, expensive and intricate. It is difficult in many cases to determine what are the powers of the different Boards, and to reconcile conflicting claims between the different branches of the city government. Our difficulty in obtaining relief is the constitution of the State, which requires general laws upon the subject of cities.

We cannot obtain relief unless we at the same time affect the city of Newark. I recommend that renewed efforts be made at the next meeting of the Legislature to give us relief.

The Legislature passed an act recommended by the Citizens' Committee, authorizing taxes to be collected by suit from corporations and individuals.

The Governor refused to sign the bill upon the application of representatives from our own and other counties, stating that the Legislature had only intended to pass a bill authorizing such suits to be brought against corporations and not against individuals, and saying that the amendment had not been incorporated in the bill.

It is to be regretted that these gentlemen took this position as, if the bill had been signed, we would now have a mode of collecting taxes from corporations, and a mode of determining the rights of the citizens with reference to their claims for taxes against corporations, which we never have had, and which it may be very difficult to obtain from any future Legislature.

That part of the bill which affected individuals, if incorrect could have been amended at the next session of the Legislature.

The bill could not have been enforced against individuals for three years, and therefore there was ample time to remedy this matter if the Legislature thought it wise so to do. But now there is no remedy. The gentlemen who induced the Governor to veto the bill on this ground have left the people of our city without the relief which was given them by that bill against the corporation.

Whether the people can obtain the passage of a bill at the next Legislature restricted to the collection of unpaid taxes by suit against corporations without at the same time including individuals is an experiment which has not been tried, and past experience induces very grave doubts of its being successful when tried.

Notwithstanding the inequalities of taxation and the failure of the Legislature to give us the relief of a more simplified city government our city is prosperous, and its bonds and securities are selling at better prices in the market than heretofore.

BOARD OF ALDERMEN.

This Board during the past year has enacted few ordinances, of which only two are important.

The one authorizing the Consumers Gas Co. to lay pipes in the streets for the purpose of lighting, heating and manufacturing purposes, &c., and the other requiring the payment of an annual license fee for every car run through or across Jersey City.

Both these ordinances have been certiorared, and it will be some time before a decision is rendered by the court.

The receipts from licenses during the year have been $31,031 47, as follows:

3 licenses for inns and taverns	$ 150 00
1,012 licenses for restaurants	24,902 46
385 licenses for peddlers	3,551 01
69 licenses for junk dealers	1,035 00
114 licenses for cartmen	171 00
48 licenses for expressmen	72 00
19 licenses for public porters	95 00
4 licenses for auctioneers	400 00
1 license for N. J. Mutual Tel. Co.	500 00
1 license for duplicate junk	15 00
14 licenses for duplicate peddlers	140 00
	$31,031 47

I again call your attention to the City Hall, which building is inadequate for the transaction of the growing business of our city, by reason of its being sadly in need of repair, and also deficient in both light and ventilation.

All of the offices should be immediately renovated and put in first-class condition.

Up to the present time the Mayor and Board of Finance and Taxation have not been provided with offices; the same should be done at once.

In the matter of erecting a free salt water bath no progress has been made during the year. Immediate steps should be taken to locate the site where the bathing house should be placed, and an estimate made of the probable cost of the building, so that when the Board of Finance and Taxation meets to make their annual appropriation, they may appropriate an amount sufficient to enable your Board to establish so necessary an improvement.

For want of an appropriation your Board has not been able to improve the condition of our public parks, and they still remain in the same deplorable condition as indicated in my last message.

Chapter 127, laws of 1883, an act to prevent fraudulent voting at elections approved March 23d, compels Boards of Chosen Freeholders of each county of the first class, and the Common Councils or Boards of Aldermen of each city of the first class, to provide within three months from the passage of the act, glass ballot boxes.

The last section of this act permits a mandamus to be issued on application of a citizen to compel Board of Aldermen or Council to provide the same.

As this act will require concurrent action by the Board of Chosen Freeholders, your Board had better communicate with them on the subject, and also which Board ought to supply and pay for the ballot boxes. I also call your attention to the gates at the railroad crossings. The structures are unsafe, unsightly and old; they tend to depreciate the surrounding property and are an eyesore to the public.

I recommend that an ordinance be enacted compelling the railroad companies to replace the old gates by those of modern design, either such as are adopted and in use in the city of Newark or of some more sightly pattern. The recent accident at one of these crossings would not have happened had a different style gate been in use which could allow a person in danger to crawl underneath the same.

I recommend that, if possible, and larger appropriations can be secured, that the compensation for election officers be increased. Only by adopting this mode will you be able to get a better class of election officers.

Your Board has the power under section 24, eighth subdivision of our Charter, to enact ordinances to regulate and prohibit interments within the city limits.

It is high time that interments in cemeteries located within the city (at least those which are named) be prohibited.

I refer particularly to the Jersey City Cemetery, Speer's burying ground and the cemetery of the Bergen Church.

These cemeteries are located within the city limits and surrounded by dwelling houses. Should an epidemic visit us interments in these cemeteries would be followed by grave consequences.

I recommend that your Board, if you coincide with me, pass an ordinance prohibiting further interments in above named cemeteries.

BOARD OF FINANCE AND TAXATION.

The financial department of our city government has been faithfully managed by this Board and has won for it the praise and continued confidence of our citizens and creditors. The financial

condition of our city, as per Comptroller's report (condensed), 1883, is as follows:

Total bonded and floating debt less moneys and bonds held by the Commissioners of the Sinking Fund		$16,339,654 00
Deduct water debt		4,838,000 00
		$11,701,645 00
To deduct from debt:		
Amount of past due taxes good (95 per cent)	$3,282,798 00	
Amount of past due assessments good (60 per cent)	2,572,620 00	5,855,418 00
		$ 5,846,227 00
Add the amount to be expended during the fiscal year		1,427,824 00
Actual debt		$ 7,274,051 00
On January 1st, water bonds		525 000 00
And improvement bonds		36,000 00

Have since been paid.

There are other assets of the city which are not included in this statement.

The Legislature has passed several bills requiring appropriations which will necessitate the raising of more money in the next tax levy.

Appropriations larger than usual will also be required by nearly every department of our city government, notably for the cleaning and repairs of streets and the repaving of some of our principal streets and avenues.

The valuation of taxable property should be adjusted throughout our city on an equitable basis, in order to meet this increase of expenditures so as to avoid a larger rate of taxation.

I believe that our citizens and taxpayers would rather submit to a low rate of taxation and a fair valuation of their property, than a low valuation and high rate of taxation.

People who are desirous of investing or building in our city always put one question first, "What is your rate of Taxation?"

As soon as this question is answered these people immediately say, "Your rate is too high, and we cannot afford to build or locate in your city; you would tax us to death."

Some mode should be adopted to reduce this high rate of taxation to induce people to come here to locate, build or invest their money.

I also call your attention to the matter of personal taxes. No tax is so reluctantly paid or complained of as unjust and onerous as the tax on personal property.

One reason why the city of Newark has gained so large additions to her manufacturing interests, is because she has always dealt with them in a liberal manner, and has imposed but light taxes, if any, on the personal property of her manufacturing establishments. I have been informed that an ordinance is on the statute books of the city of Newark exempting the personal property of any manufacturing establishment from taxation.

I believe that nothing is so unjust or against the interests of any city as to tax the personal property of our manufacturing establishments.

We can only gain by encouraging these interests. Low rates of taxation on their real estate, exemptions from their personal taxes, will induce new and large commercial and manufacturing interests to seek our city, thereby increasing the population and enhancing our ratables.

I recommend that your Board appoint a committee empowered to make a thorough investigation and to report the best mode and manner of taxing commercial and manufacturing establishments.

I again recommend the building of a vault for the preservation of valuable papers, books and documents, for should a fire occur irreparable loss would be entailed.

I also call attention to the fact that the clerical help in the city clerk's office is insufficient for the increased business of that office, and recommend the appointment of an additional clerk.

DEPARTMENT OF PUBLIC INSTRUCTION.

Few are aware, or if aware, properly realize the continual growth of our public school system. The number of children between the ages of five and eighteen in the city is 47,522, of which 22,453 enjoyed the benefits of our schools. The average daily attendance was 12,962, the number of teachers 332, the number of schools twenty. Not only has the increase in the attendance of pupils in our public schools kept pace with the increase in population, but a large number of children (2,099) have been refused admission for want of room. Two-thirds of those refused were from the vicinity of Schools Nos. 2, 3, 4, 5, and 19.

A new building should be erected in the neighborhood of these schools to relieve pressure for admittance. The city is in duty bound to educate and instruct the children of her citizens, and should not have it said of her that children were turned away from the school house doors for want of accommodation.

By the failure of the City Bank, in which the Treasurer of the Board of Education had deposited the funds necessary to pay the teachers' salaries, they were deprived of the compensation due them. The Legislature, however, has enacted a law under which the teachers will be paid, and the amount required will be placed in the next tax levy. By an act of the Legislature, the office of Treasurer of the Board of Education has been abolished. The employees of this department are now paid by the proper authorities in the same manner as all other payments by the city are made.

Harmony has not always prevailed among the members of this Board, which is to be regretted.

Only by united and harmonious action can good results be attained.

I again recommend that at least one or two evening schools be opened during the winter months.

We have a a large population here of young men and boys, who are only too willing to get a chance to elevate themselves and improve their knowledge.

Your Board allowed some of the schools to be closed for want of fuel. Nothing hurts the citizen more than to hear his children say: "We were sent home, our school has been closed, has no coal to burn.

The matter can easily be remedied by making a better distribution of the supply of coal at time of purchase.

At any rate no school ought to be closed for want of fuel, and timely arrangements should be made to prevent a recurrence of last winter's experience.

Members of the Board of Education hold a sacred trust; for parents whose avocations prevent them from personally watching the workings of the schools; for children, whose youth and inexperience make them powerless to know or to do what is for their best interest; for the city and all its citizens whose material prosperity, quiet and happiness are bound up with the progress of the rising generation.

FIRE DEPARTMENT.

This department seems to be in an efficient state, judging from the fact that while the number of fires has been greater, the losses sustained are smaller.

Another steamer has been rebuilt and the apparatus in general is in better condition than formerly.

As the entire apparatus of this department is old it becomes apaarent that the time is not far distant when our city will be called upon to make larger expenditures in that direction.

With few exceptions the engine houses are in fair condition, but what I have said in regard to the apparatus also applies to the houses.

During the year but few large fires have occurred and only one or two have entailed heavy losses. The action of the Board of Fire Commissioners in refusing to allow the reconstruction of the frame buildings partly destroyed by fire on Newark avenue was correct. No frame building situated within the fire limits should be allowed to be reconstructed.

The time has come when we ought to have building laws similar to those now in force in other large cities. The disposition of the whole subject of reconstruction of buildings within the city limits should be vested in this department.

Plans for new buildings, repairs of old and damaged houses should be first submitted to a Superintendent of Buildings, and when approved by him permission granted to proceed with the intended erection and repairs

I recommend that your Board take timely action looking towards the passage of such a building law as indicated by the next Legislature.

I also recommend that the purchases for supplies, especially feed, be made in larger quantities and if practicable by contract. More care should be used in the appointment of men-at-call, so that discipline and obedience to orders can be more readily enforced.

POLICE DEPARTMENT.

This branch of the city government has been managed in an efficient manner. our citizens have enjoyed better protection than could be expected from the limited number of men employed, and the large territory required to be covered

Order and discipline among the members of the force have been more generally enforced than heretofore.

The time is not far distant before a large increase of the police force must take place, as it is impossible to cover our city effectively with the small number of men employed.

The compensation of the men is not as large as it should be. The patrolmen must dress better both in the quality and quantity of clothing than they would if engaged in any other ordinary pursuit of life. Their clothes soon become defaced and worn, because of exposure and rough usage, and if a careful inspection were made many a patrolman would be compelled to visit the clothier for a new suit.

I recommend a fair and just increase of the salaries of patrolmen, if appropriations can be secured.

It is to be regretted that no law has been enacted by the Legislature, fixing the tenure of office.

Good service cannot be relied upon unless the appointment of men is permanent, subject to removal for cause only.

I call the attention of your Board to the poor quality of gas furnished by the gas companies.

Our citizens complain most bitterly, and claim that the quality is poor, the candle power smaller than contract calls for, and the service deficient.

The lamps are not cleaned properly if at all, and the condition of some of the lamp-posts is miserable.

On dark nights especially do our citizens complain as the lights are dim and in additional large numbers not burning at all, it seems, that the protection of the burners from wind is deficient. The entire lamp-posts on which gas light is burned should be thoroughly cleansed and repaired, and new burners attached.

The new Charity Hospital is now in use, and is a vast improvement on the old.

Your Board deserves credit for the able manner, notwithstanding scant appropriations of money, in which you have managed to put the Hospital in a working condition.

The accommodations furnished by several of the Police Stations, and even at Police Headquarters to the officers and patrolmen are poor, but this cannot be remedied unless new station houses are erected.

I recommend that your Board at the next session of the Legislature, present an act compelling the city to build a new station house and police headquarters, I again recommend the establishment of a reform school for youthful violators of the law, so that they may be sent to this institution instead of compelling them to associate with older and hardened criminals. Only bad results are attained by this intermingling of prisoners, and many a youth who could have been reformed, leaves the jail or even Snake Hill a confirmed criminal.

BOARD OF PUBLIC WORKS.

No branch of the city government has supervision of so much that affects the comfort, convenience and prosperity of our citizens, as the Department of Public Works.

It has control of our streets and sewers, of the water supply and the repairs and erection of our public buildings.

During the past year several of our streets have been repaved and put in good condition.

All of our principal streets and avenues, which are at present paved either with wood or cobblestones, should be repaved with Belgian block pavement if appropriations can be secured.

All applications for improvements should be granted. Some amicable arrangement should be made between our city and the city of Hoboken, whereby the Ravine road sewer could be repaired and put in working order, also the Ravine road, which has cost so much money and is to-day of no use to our citizens by reason of its miserable and impassable condition.

Your Board should appoint a committee, who, in conjunction with the Board of Finance and Taxation, the Corporation Counsel and Mayor, could meet a similar committee of the city of Hoboken, and discuss the matter, and if possible agree upon some plan under which both the Ravine sewer and road could be repaired.

Action should be taken by your Board to enable you to improve the drainage of the lower section of our city.

One or two large sewers should be built to the river front capable of receiving and discharging the entire sewage of the city.

These sewers ought to be constructed in a manner so that they could discharge their contents at high or low tide. The immediate effect of building such sewers would be to enhance in value every piece of property drained, it would stimulate the erection of buildings, and thereby increase our ratables and give employment to the laboring classes.

Your Board during the past year tried to experiment of letting out by contract the cleaning of our streets and the removal of ashes and garbage.

Never before in the history of our city were the streets so poorly cleaned, and the contractor who was so anxious to obtain this contract has since petitioned your Board or a release under an act of the Legislature passed for his especial benefit.

His petition has been granted, and the city now again attends to the cleaning of her streets.

The precedent established by the act of the Legislature in releasing the contractor from fulfilling this contract will produce future troubles with other contractors, and I advise your Board to ask the next Legislature to repeal the act, otherwise continual trouble and disputes will arise between your Board and the contractors.

Our contract with the city of Bayonne for supplying that city with water is in a measure a recompense for the loss of the city of Hoboken as a customer Some water rents have already been received, and these receipts were applied in the payment for the laying of the supply pipes.

The collection of water rents has been better than formerly, but the expenditures have not been reduced.

The Water Department should not only be self-sustaining, but ought to yield a handsome surplus which could be applied in the payment of bond when they might fall due.

The purchase of supplies for the Water Department should be regulated and put in a more business shape.

No purchases should be made except the supplies are really necessary, and if practicable by contract.

I call your attention to the reservoir located on Central avenue, or that portion rather which is not in use.

The stone walls should be sold and any material located within the enclosure removed the sidewalks replaced and the entire property either

disposed of by public sale or turned over to the Board of Aldermen for park purposes.

The surrounding property owners complain of the sidewalks and assert that their property is declining in value on account of the state in which the unused portion of the reservoir is allowed to remain.

Some plan should be devised whereby the Morgan street dock could be made to yield a larger income. This dock should be thoroughly repaired and put in first-class condition, all nuisances removed, and if necessary some dredging done, so as to offer inducements to vessels to come there to load or unload, thereby increasing the revenue derived from this source.

A report should be annually rendered to the Board of Aldermen, showing the receipts and expenditures of every department in your Board.

I recommend strict economy in the purchase of supplies, and wherever possible the same should be made under contract.

CONCLUSION.

Owing to the close proximity of our city to the greatest city of the Western world and by reason of the great increase in population and manufacturing and commercial interests, we will soon occupy the proud position of being the first city in our State.

This position can only be retained, if attained, by encouraging the establishment and development of every commercial and manufacturing interest in our city and by giving the largest facilities to every industry that employs labor.

Our advantages as a receiving and distributing point are unsurpassed, and for this reason alone will manufacturers seek location in our midst, property becoming too valuable in our neighboring cities for that purpose.

This communication has been extended beyond my original purpose, but I am conscious of having only discharged my duty in submitting to you the statement and recommendations contained therein.

We are, by virtue of the positions of trust we occupy, responsible for a just and economical government.

Let us then fulfill the duties assigned to us and be ready at all times to render a faithful account of the manner in which these trusts have been executed, so that we may merit the approval of our citizens. Respectfully submitted.

ISAAC W. TAUSSIG, Mayor.

OFFICERS' COMMUNICATIONS.

The City Clerk laid before the Board the following communication from the Mayor, filed in the City Clerk's office on the 23rd inst., at 12:25 o'clock p. m., and the same was read, received and ordered to be entered in the minutes:

EXECUTIVE DEPARTMENT,
MAYOR'S OFFICE, CITY HALL.
JERSEY CITY, June 23, 1883.

To the Honorable the Board of Aldermen:

Gentlemen—I herewith return to you an ordinance to amend an ordinance, passed June 12, 1883, entitled, "An ordinance to license and regulate inns and taverns and restaurants and the sale of spirituous and intoxicating liquors," passed June 6, 1871, for the following reason:

This ordinance makes no distinction or difference in the price for a license between saloons and restaurants, inns and taverns, hotels or grocery stores where malt or spirituous liquors are sold. All are treated alike and pay the same license. This is manifestly unjust, for in all the larger cities a difference in the price of a license is made between places where malt liquors are sold and places where both malt and spirituous liquors are offered for sale.

Even in the city of Newark, which ought to be a safe guide for us, there are two kinds of licenses.

First—A full license which authorizes the sale of all kinds of wines, malt or spirituous liquors, which costs fifty dollars.

Second—A half license for light wines and beer, only costing twenty-five dollars.

I am in favor of an ordinance containing a proper classification. I do not think that the ordinance presented to me will remedy the evils, which I understand were the moving cause for the passage of the proposed ordinance, and I therefore return it without my approval.

Respectfully submitted,
I. W. TAUSSIG, Mayor.

The resolution was adopted.

The Committee on Excise presented a report setting forth that "to prevent unnecessary delay in the granting of licenses now before the Board, because of the difference of opinion as to the number of signers to applications, they obtained from Hon. Leon Abbett, Corporation Counsel, his opinion wherein he states that the power to grant licenses for inns and taverns and restaurants, is derived from section 24 of the City Charter of 1871; that a distinction is made between inns and taverns and restaurants in that

section; that the revised statutes requires the recommendation for inns and taverns to be signed by ten reputable freeholders of the city, and that the ordinance of the city prescribing five for restaurants governs, there being no State law controlling restaurants in cities.

The report was received and ordered filed.

The Committee on Finance reported the following resolution:

Resolved, That warrants be drawn on the City Treasurer in favor of the following-named for services during August, 1883:

John E. Scott, City Clerk, $250; W. A. Creamer, City Marshal, $83 34; Conrad Reichenbecker, Overseer of the Poor, $83 34.

The resolution was adopted by the following vote, the yeas and nays having been ordered and taken, on the call of the President:

Yeas—All the members present, eleven in number.

The Committee on Streets, to whom was referred, June 26, 1883, the petition of James Quigley for such action as will compel J. H. Gautier & Co. and others to remove track at corner of Warren and Essex streets to centre of street, &c., presented a report thereon setting forth that the track in question was laid under authority of an ordinance passed April 27, 1882, in answer to a petition of J. H. Gautier & Co. and others; that October 10, 1882, upon a petition of Josepa T. Kelly and others, a resolution was adopted requesting J. H. Gautier & Co. and others to relay the track in the centre of the street; that December 26, 1882, a resolution was adopted requesting the Street Commissioner to cause the track at the intersection of Warren and Essex streets to be removed to the centre of the street; that February 27, 1883, the Street Commissioner presented a report, accompanied by a survey made by Chief Engineer Sites, of the Board of Works, showing clearly that the location of the track cannot be changed without destroying a manhole of the sewer and a receiving basin, and if changed to the centre of the street, the track could not be used, as it would leave a radius too short to allow a car to swing around the corner; that on April 17, 1883, the Committee on Streets recommended a repeal of the original ordinance; that during July, 1883, the Chairman of the Committee on Streets examined the locality and requested Mr. Sites to make a second examination, which he very kindly did; that this second report of Mr. Sites simply corroborates his first; that Mr. Quigley has ample room in the street to load and unload goods; that the location of the track in question cannot be changed; it can be removed by repeal of the original ordinance and subsequent action, the report asking that the committee be discharged from the further consideration of the subject.

The report was received, adopted and the committee discharged.

(Alderman Dziuba returned.)

The Committee on Streets to whom was referred June 12, 1883, the petition of T. A. Chamberlain and others for removal of wooden bridge over Henderson street crossing of Pennsylvania Railroad, and the communication from the Pennsylvania Railroad Company in answer to resolution of the Board requesting the substitution of an iron foot bridge for present wooden bridge at Newark avenue, presented a report thereon, setting forth that whenever the condition of the bridge demands any change, the company are ready to consider the matter; that the crossing of Newark avenue and Henderson street is very much obscured and made dangerous by the erection of a butcher shop at the angle formed by the intersection of Newark and Railroad avenues; that the shop was erected without any permission, and has gradually encroached upon the street, until now, with its awning and sign it is impossible, at certain places, to see either up or down or across the tracks, and it should be removed, that the committee have sought the advise of the Corporation Counsel and the assistance of the Chief Engineer of the Board of Public Works, and find that the shop in question is an encroachment, and the Counsel advises the Board as to what action is necessary to secure its removal, the report recommending the adoption of the following resolutions:

Resolved, That the butcher shop and the awning and signs attached thereto, standing at the intersection of Newark and Railroad avenues, increases the danger of crossing the tracks of the Pennsylvania Railroad at the crossings of Newark avenue and Henderson street by obstructing the view in the passage of trains and ought to be removed.

Resolved, That the Corporation Attorney be instructed to bring an action of ejectment for the removal of such part of said butcher shop, awnings and signs attached thereto as is in the public highway, and that said officer be further instructed to secure the co operation of the authorities of the Pennsylvania Railroad Company, or to take such action as will secure the removal of the premises in question.

The report was received.

After some discussion, Alderman Kelly desired that his name be erased from the report.

The resolutions were then adopted by the following vote, the yeas and nays having been ordered and taken, on the call of the President:

Yeas—President Furman and Aldermen Abernethy, Amorose, Hauser, Hilliard, McKnight and W. D. Reynolds.

Nays—Aldermen Dziuba, Jordan, Kelly, Marsh and J. J. Reynolds.

OFFICERS COMMUNICATIONS.

The City Clerk laid before the Board the following communication from the Mayor filed in the City Clerk's office on the 21st inst., and the same was read, received and ordered to be entered in the minutes:

MAYOR'S OFFICE, CITY HALL,
JERSEY CITY, Sept. 21, 1883.

To the Honorable the Board of Aldermen of Jersey City:

Gentlemen—I herewith return to you without my approval, the resolution passed at your meeting of Sept. 11th inst., instructing the Corporation Attorney to bring an action of ejectment for the removal of such parts of the butcher shop standing at the intersection of Newark and Railroad avenues, etc., for the following reasons:

So long as the bridge and gates remain at the above intersection, it is useless to remove the butcher shop, and thereby deprive the owner of making a living. The butcher shop, if located on city property, should pay rent to the city. The entire structure is unsightly, and should be removed, as it tends to depreciate surrounding property, and is injurious to business and dangerous to general travel.

Respectfully submitted,

I. W. TAUSSIG, Mayor.

The report of the City Comptroller of the receipts of the City Treasury from September 19 to 25, 1883, as follows, was presented, received and ordered filed:

REPORT OF SPECIAL COMMITTEE.

The special committee appointed under resolution of the 11th inst. to inquire into the manner by which the $30,000, given as a free gift to the Mayor and Aldermen of Jersey City by the Pennsylvania Railroad Company, was turned over to the Board of Finance and Taxation by the Mayor, without having first consulted with the Board of Aldermen or its Finance Committee, presented a report thereon setting forth that the committee held a meeting on Monday, the 24th inst., at which meeting a majority of the committee were present, also the Mayor and City Treasurer, the Corporation Counsel and Comptroller were represented, but no member of the Board of Finance and Taxation appeared. The committee ascertained from those present that the $30,000 was deposited in one of the banks, and stands on the Comptroller's books to the credit of a special account, and has not been expended; that because of the absence of the Board of Finance and Taxation, no further progress could be made; that the committee refrained from resorting to a subpœna, as authorized by the resolution and charter, believing that the members of a co-ordinate branch of the city government, and one of great responsibility, would be glad of an opportunity to explain and make clear this very matter, and that the committee adopted the following resolution:

Resolved, That it is the sense of this committee that the action of the members of the Board of Finance and Taxation, in failing to appear at the meeting of this committee, is an act discourteous to the Board of Aldermen, through its committee, and the taking of advantage of the failure of this committee to exercise the power of subpœna allowed by the charter, and which the committee did not deem necessary to issue against the members of a Board, under the same law, and with the like responsibility. The report was received and adopted.

REPORTS OF STANDING COMMITTEES.

The Committee on Baths and Armories, to whom was referred, on the 11th inst., the communication from Adolph Luck, contractor for removal of night soil, for the designation of a location for scow, &c., presented a report thereon recommending that the communication be referred to the Board of Police Commissioners, with whom said Adolph Luck originally made his contract for removal of night soil.

The report was received and its recommendation adopted.

The Committee on Finance reported the following resolution:

Resolved, That warrants be drawn on the City Treasurer in favor of the following-named for payment of salaries for September, 1883, when due, viz:

John E. Scott, City Clerk, $250; W. A. Creamer, City Marshal, $83 33; Conrad Reichenbecker, Overseer of the Poor, $83 33. The report was received.

The resolution was adopted by the following vote, the yeas and nays having been ordered and taken, on the call of the President pro tempore:

Yeas—All the members present, eleven in number.

The President protempore declared the Board at recess for five minutes. On reassembling, the Committee on Elections presented a report, recommending the adoption of a resolution fixing boundaries of election precincts for the ensuing registry and election. The report was read and received.

Alderman Dziuba, chairman of the committee, stated that the report as read was not the report as intended to be presented by the committee; that a map accompanied the report making changes in the First District and reducing the number of precincts to seven, and asked that the map which had been handed with the report to Alderman Jordan be produced.

Alderman Jordan produced the map and explained that he had no knowledge of the purpose of the committee to make any change in

the First District, and did not suppose that the map was a part of the report.

The Clerk then read the changes, as marked on the map. The Second Precinct on the map includes the six blocks of land bounded on the south by Sussex street and the Morris Canal, on the east by Washington street, on the north by York street, and on the west by Henderson street, and covers the territory included in the Second Precinct and part of the Fourth Precinct, as described in the resolution. The Fourth Precinct on the map is the same as Fifth Precinct in resolution. The Fifth Precinct on the map includes the six blocks of land lying within the bounds of York street on the south, Henderson street on the east, Wayne street on the north and Barrow street on the west, and covers the territory included in the Sixth Precinct and part of the Seventh Precinct, as described in the resolution. The Sixth Precinct, on map, includes the three blocks of land lying within the bounds of Henderson street on the east, York street on the north, Barrow street on the west, and Bright street and Morris Canal on the south, and covers the territory included in part of the Fourth and Seventh Precincts, as described in the resolution.

The resolution as reported by the Committee, including the changes as shown on map was rejected by the following vote, the yeas and nays having been ordered and taken on the call of the President pro tempore:

Yeas—Aldermen Abernethy, Dziuba, Hauser, Hilliard, and W. D. Reynolds.

Nays—Aldermen Ambrose, Jordan, Kelly, Marsh, McKnight and J. J. Reynolds.

On motion of Alderman Jordan, the vote by which the resolution was rejected, was reconsidered.

Alderman Jordan then moved, That the resolution as first read by the Clerk, excepting the Fifth and Sixth Precincts of the Fourth District, be adopted.

Alderman Kelly moved as an amendment, that the Fourth District be not changed, but adopted with the original precinct lines.

The amendment was accepted and the motion was then rejected.

On motion of Alderman W. D. Reynolds, the resolution as first read by the Clerk was adopted, the resolution as adopted being as follows:

The Committee on Excise, to whom was referred on the 11th inst. the petition of P. T. Pockman, pastor of Reformed Church, and others, of Greenville District, Jersey City, that no more than twenty restaurant licenses be granted in said district, and none to grocery stores, presented a report setting forth that there are about fifty restaurants in said district, and the committee do not see any way whereby the prayer of the petition could be granted without unjust discrimination; that as to the allegation that many places licensed have violated the law by failing to close on the Christian Sabbath, the committee insist that every restaurant license granted by the Board is upon condition that the licensee shall keep and observe all the laws of the State and ordinances of the city; that the Board of Aldermen do not control the police force and have nothing to do with enforcing the law, and that the remedy is with the petitioners—they can cause the police and courts to compel a compliance with the law.

The report was received and adopted.

EXECUTIVE DEPARTMENT,
MAYOR'S OFFICE, CITY HALL,
JERSEY CITY, Dec. 6, 1883.

To the Honorable the Board of Aldermen:

Gentlemen—I herewith return, without my approval, a resolution adopted by your honorable body, November 27, 1883, authorizing James C. Lindsay to remove a large elm tree from the sidewalk in front of lot 25 Wayne street, in block 273:

Several parties on said street have remonstrated against said removal, alleging that this tree, and others like it on the same block, are superior specimens of the elm, they are old land marks, were planted before Van Vorst Township was annexed, and their presence enhances the value of property in this locality as a place of residence, that the trees are all on line, and the owners of buildings now erecting did not consider their removal necessary.

Respectfully submitted,
I. W. TAUSSIG, Mayor.

OFFICERS' COMMUNICATIONS.

EXECUTIVE DEPARTMENT,
MAYOR'S OFFICE, CITY HALL,
JERSEY CITY, Dec. 17, 1883.

To the Honorable the Board of Aldermen of Jersey City:

Gentlemen—I have received from the Pennsylvania Railroad Company, under date of the 15th inst., their draft for $30,000, as a voluntary contribution from said company to the Mayor and Aldermen of Jersey City in aid of the municipal government of Jersey City for the current year, 1883. The communication to me, from F. Wolcott Jackson, General Superintendent of the United Railroads of New Jersey Division of Pennsylvania Railroads, states that "this voucher is transmitted with the same understanding and upon the same conditions as contained in a communication transmitting a voucher for a similar amount last year by Hon. W. J. Sewell, who was at that time acting for the Pennsylvania Railroad Company. In that communication the tax on the Elevator at Jersey City was referred to, and it was then stated that in the opinion of our counsel, the assessment on the elevator was not legal. Understanding that an assessment has been placed on the elevator this year this voucher is transmitted with the understanding that the acceptance by the city will be in lieu of such taxes that may have been since assessed on the elevator in case the assessment is held to be valid under the law." I have placed the draft in the custody of the City Treasurer for safe keeping until such time as the Board of Finance and Taxation of Jersey City shall accept the same and determine what disposition shall be made of the money.

Respectfully submitted,

I. W. TAUSSIG, Mayor.

A copy of a resolution adopted by the Board of Finance and Taxation on the 12th inst., and approved by the Mayor on the 14th inst., directing the Comptroller to transfer $145 from the account of Elections to the account of Printing, Stationery and Supplies for the fiscal year 1882-3; also $5 from Soldiers' plot, and $164 44 from Elections to the account of Public Grounds and Buildings for same year, was presented, received and ordered filed.

EXECUTIVE DEPARTMENT.
MAYOR'S OFFICE, CITY HALL,
JERSEY CITY, Dec. 27, 1883.

Gentlemen—I herewith return, without my approval, a resolution adopted by your Honorable Body December 18, 1883, granting permission to John McInerny to remove, at his own expense, three or four trees in front of premises owned by him, northeast corner of Barrow and Montgomery streets, because the trees are so close together that they prevent each others proper growth.

I therefore return the same for further consideration. Very respectfully,

I. W. TAUSSIG, Mayor.

The following preamble and resolutions were presented by the President, and adopted:

Whereas, The several street crossings of the Pennsylvania Railroad Company and the New York, Lake Erie & Western Railroad Company within the limits of that portion of Jersey City lying east of the Hill are very dangerous by reason of the number of trains running over the roads of said companies; and

Whereas, Other cities on the line of said roads are traversed by elevated roads with substantial bridges, ornamental, useful and strong; and

Whereas, The elevation of the tracks of said companies in the territory mentioned can and ought to be done, and by so doing will add to the present value of surrounding property and render safe and easy the communication between different portions of our city now so difficult, because of the danger incurred in crossing the tracks; and

Whereas, It is due to Jersey City that said companies who now enjoy so many privileges by reason of the geographical situation of our city, should be willing to afford our citizens every facility to use the streets without contact or con-

flict with the authorities of said railroads: therefore

Resolved, That the Board of Aldermen of Jersey City recommend to the Pennsylvania Railroad Company and the New York, Lake Erie and Western Railroad Company, that they rebuild their roads in that portion of Jersey City lying east of the Hill, and that the tracks shall be elevated, with bridges over each street crossing, all of sufficient height to allow of the passage under bridges of vehicles of every kind.

Resolved, That in the opinion of this Board, the elevation of said tracks will add to the value of adjacent property, and will render absolutely safe all street crossings and satisfy all demands of the business community and others who are now so often in conflict with the railroad companies, by reason of vexatious delays and the constant jeopardizing of life and property.

Resolved, That copies of the foregoing preamble and resolutions be sent to the President of each of said companies.

OFFICERS' COMMUNICATIONS.

The City Clerk laid before the Board the following communication from His Honor the Mayor filed in the City Clerk's office on the 1st inst., and the same was read, received and ordered to be entered in the minutes:

EXECUTIVE DEPARTMENT,
MAYOR'S OFFICE, CITY HALL,
JERSEY CITY, Feb. 1, 1884.

Honorable Board of Aldermen:

Gentlemen—I herewith return without my approval an ordinance passed by your Honorable Body January 22, 1884, entitled "An ordinance to amend an ordinance entitled 'An ordinance concerning hack drivers, omnibus drivers and porters,'" approved April 26, 1880. This ordinance seeks to prevent any person other than a citizen of the United States and a resident of Jersey City, from obtaining a license to drive a car on any horse railroad whose cars traverse the streets of Jersey City, and was passed without due reflection by your Honorable Body.

Its enforcement would compel the North Hudson County Railway Company to employ none but residents of Jersey City, and would probably prevent and hinder said company in running their several lines of cars. I would call your attention to the provisions of an act of the Legislature, approved March 31, 1882, wherein authority to pass ordinances for purposes of revenue and to license and regulate car drivers, as well as many other callings and occupations, is conferred upon your honorable body. The act referred to is entitled "An act to amend an act entitled 'An act respecting licenses in cities, incorporated boroughs, or police, sanitary and improvement commissioners and incorporated camp meeting associations or seaside resorts,'" approved March 25, 1881.

Very respectfully,
I. W. TAUSSIG, Mayor.

A communication from the Committee on Printing, Stationery and Supplies of the Board of Finance and Taxation, requesting permission to construct a closet on second floor of City Hall, between stairway and wall of Aldermanic Chamber, and for use of Aldermanic Chamber for purposes of meeting, was presented, received and, on motion of Alderman Abernethy, the permission was granted.

The report of the City Comptroller of the receipts of the City Treasury from the 6th to the 12th inst., as follows, was presented, received and ordered filed:

General tax	$17,654 39
Assessment account	4,624 21
Water account	12,145 23
Sinking Fund, 1873	115 41
Sinking Fund, 1876	562 05
Total	$35,101 29

The City Clerk laid before the Board a letter received from H. J. Jewett, President of the New York, Lake Erie and Western Railroad Company, acknowledging receipt of a copy of the resolution of January 8, 1884, recommending the elevation of the tracks of said company east of the Hill, and stating that the company is very desirous of doing anything in its power looking to the convenience and safety of the people. The letter was received and ordered filed.

The annual reports of the Board of Public Works and Board of Fire Commissioners for the year ending December 31, 1883, were presented, received and ordered filed.

The City Clerk presented reports of the service upon him of two writs of certiorari, one issued at the suit of the Pennsylvania Railroad Company to review the ordinance to regulate the running of locomotives and horse cars through or across the streets, the other issued at the suit of the Peoples' Gas Company, the

Jersey City Gas Company, James L. Ogden and Andrew Clerk to review the ordinance to authorize the Consumers' Gas Company to lay pipes in the streets: both writs are returnable at February. 1884, term of the Supreme Court of New Jersey. Also an order from the said Court staying further proceedings, under the ordinance, of the Consumers' Gas Company, and that returns to said writs have been made by the City Clerk, under the direction of the Corporation Attorney.

The reports were received and, with the order of the Court, ordered filed.

The City Clerk presented reports of the approval by the Mayor January 25, 1884, of the ordinances passed January 22, 1884, regulating the use of streets by ambulances, &c., and repealing the ordinance passed April 27, 1882, authorizing Phyfe & Burns to lay a track across Henderson and Grove streets, and February 2, 1884, the ordinance passed January 22, 1884, amending the ordinance passed November 27, 1883, authorizing the Pavonia Horse R. R. Co. to lay tracks in certain streets. The reports were received and ordered filed.

Honorable Board of Aldermen:

Your Committee on Public Grounds and Buildings respectfully report, that on Wednesday, the 4th inst., they were notified by the City Marshal that a carpenter was engaged in erecting a closet in the City Hall; that, on going to the City Hall, they found a carpenter engaged in constructing a closet in the space between the stairs and wall of this chamber; that Thomas Kennelly was the carpenter, and the work was being done by him at the order of Mr. John D. McGill, a member of the Board of Finance and Taxation; that your committee cannot ascertain that the work was being done at the order of the Board of Finance and Taxation, but do know that the consent of your honorable body or its committee had not been asked for or considered: that on said day your committee ordered the carpenter to cease work, and were denied authority; that on the evening of said day your committee met and directed the City Marshal to order the carpenter to remove the structure, or so much of it as was built on Thursday morning, and if refused, that he cause it to be removed; that on

said Thursday morning the City Marshal carried out the instructions of your committee, and placed the lumber removed on the sidewalk, from whence it was removed by the Street Commissioner, on complaint of the Chief of Police; that on the same day the City Marshal was sent for by James N. Davis, Justice of the Peace, and on appearing before said Justice was ordered to furnish bail on a charge of malicious mischief preferred, as the Marshal was informed, by Mr. Kennelly; that said matter before said Justice was finally settled by the Marshal refusing any bond and the Justice stating that he would send the case before the Grand Jury; that on said day the Marshal was also served with a summons to appear before Justice McDermott, in the District Court, at the suit of Thomas Kennelly, damages $200, and therefore your committee signed a request to E. T. Paxton, Esq., Corporation Attorney, to defend the suit; that your committee believe that the Board of Aldermen control and have the sole custody of the City Hall and all its apartments, and deny the right of any member of the Board of Finance and Taxation to construct or erect any closet, or any other thing in the City Hall, without the authority of your honorable body or your committee. Your committee respectfully ask your approval of its action in the premises.

P. C. HILLIARD,
W. D. REYNOLDS,
FREDERICK HAUSER,
Committee on Public Grounds and Buildings.

Jersey City, Feb. 12, 1884.

The Committee on Streets, to whom were referred January 8, 1884, the communication from the Board of Public Works, submitting petition of James R. Thompson and others, for the adoption of some plan in connection with the Pennsylvania Railroad Company to make the crossings of Greene and Washington streets less dangerous, and the resolution of the Board of Public Works, requesting return of the petition, presented a report thereon, setting forth that they have conferred with the Corporation Counsel and find that the Board of Aldermen have the power, by ordinance to regulate and control the running of locomotive engines and railroad cars through the streets and public places, and to regulate the use of streets by foot passengers, vehicles, railways and engines; should the conference with the Pennsylvania Railroad Company, required by said petition, result in a plan requiring an ordinance for any of the purposes aforesaid, the Board have full control over the subject matter of the petition, but should the conference result in a plan necessitating the re-location, change or elevation of the road bed of the Pennsylvania R. R. Co., or the vacating, altering the lines or changing the grade of any streets or highways of the city, further legislation is required to properly accomplish that purpose and to define a more definite mode of procedure, assuring at the same time, further protection to government, and the right of property to be affected thereby, notwithstanding an act of the Legislature of this State, entitled "An Act to authorize any city of this State to enter into contracts with railroad companies, whose roads enter into their corporate limits, whereby said companies may relocate, change or elevate their railroads, and when necessary for that purpose to vacate, change the grade of, or alter the lines of any streets or highways therein," approved March 19th, 1874; but should the last named act properly confer power as to the subject matter thereof, and be a sufficient legal protection to the right of government and property, the Board is not the proper department of the city government to act thereunder. The report was received and ordered filed.

The Committee on Streets reported the following resolutions on petitions heretofore referred:

Resolved, That permission is hereby granted to Patrick Anglescy, to remove in the manner prescribed by law, a one story frame building from 373 Grand street to corner Varick and Colden streets, the work to be completed in ten (10) days from its commencement, under the direction of the Street Commissioner, provided the ordinance governing such matters be first complied with.

Resolved, That permission is hereby granted to Isaac Newman to erect and maintain in the manner prescribed by the law and resolution of May 22, 1883, a sign over the sidewalk in front of 384 Monmouth street, to remain during the pleasure of the Board of Aldermen.
